This complimentary session will be conducted online by zoom in the evening to facilitate your attendance, and joining details will be provided to Managing Trustees who have pre registered beforehand.

Sintons LLP have over 30 years' experience advising Managing Trustees of the Methodist Church on the multitude of legal and practical issues that they confront and we were proud to be appointed panel solicitors in 2018. Our dedicated team, led by partner Laura Peace, work nationally for you and are already known to many. We welcome all Managing Trustees to this session.

We offer this zoom as an opportunity to discuss your legal and practical questions ( we cannot deal with constitutional matters however) and input our team's current national experience. From large questions to small, we would be happy and interested to hear from you. You do not need to raise a question to attend.

Please outline your question/query on the registration form so that we may consider and be able to deal with it in a meaningful way at the zoom session. If we get multiple questions on broadly the same point it will assist us to group topics for discussion.

If you wish to anonymise your question please indicate accordingly at the relevant section of the registration form.

Registration is on a first come first served basis but, in the event of over subscription we will offer a second session and you will be notified.
